

Structure Review Letter — Specimen Format

Reviewed for structure — not a verification opinion

To whom it may concern,

We reviewed the CBAMValid Preparation Pack structure. It contains the data fields and evidence lineage required under IR 2025/2621 for our verification workflow. This is a structural review, not a verification opinion.

This specimen shows the exact boundary language CBAMValid requests in paid structure-review engagements. It is published by SectorCalc Corporation (CBAMValid) as a format specimen. It is not a letter issued by TÜV SÜD, DNV, SGS, Bureau Veritas, TÜRKAK, or any other accredited body.

Scope examined (structure only)

- Operator / installation / reporting-year boundary
- CN goods, quantities, sector, allocation
- Embedded-emissions calculation trace
- Evidence register and field-to-evidence lineage
- Fail-closed quality controls
- Integrity manifest (hashes, ruleset pin, seal time)

Signature block (to be completed by the reviewing body)
